

NGUYEN DO ANH MINH

FULLSTACK DEVELOPER | RPA & DX

CAREER SUMMARY

Fullstack developer with **4+ years** designing, building, operating, and maintaining web systems end-to-end and **8+ years** in infrastructure engineering.

Hands-on across the whole system lifecycle — design, development, server operation and maintenance, debugging, and data analysis — and drives digital transformation (DX) by deploying **RPA** to automate labor-intensive processes in the travel field.

Returning to Vietnam in December 2026 and seeking a long-term Fullstack Developer / RPA & DX opportunity in Ho Chi Minh City.

TOP SKILLS

Laravel, PHP, MySQL, JavaScript

AI-Driven Development (LLMs, Agentic AI, BMAD-METHOD)

RPA & DX (BizRobo!, n8n)

VM Server, AWS, Docker, Linux

System Design, Operation & Maintenance

Data Analysis & Reporting

Networking (WAN, VPN Site-to-Site)

Firewalls (Juniper, Fortigate, Zywall)

Address: Binh Thanh Ward, Ho Chi Minh City, Vietnam (from Dec 2026 | currently Tokyo, Japan)

WORK EXPERIENCE

Fullstack Developer (RPA & DX)

H.I.S. Co., Ltd.

September 2019 – Present (6 years 10 months) | Tokyo, Japan

- **AI Research & Application (2024 – Present):** Applied **LLMs** (ChatGPT, Claude, Gemini, Perplexity) and the **Google AI ecosystem** (NotebookLM, Google AI Studio, Google Stitch) to accelerate fullstack development and RPA workflows; leveraged **agentic AI / AI-driven development** (Claude Code, Claude Cowork) and the **BMAD-METHOD** (Agile-based AI-agent workflow management) to speed up coding, automation design, and delivery.
- **Fullstack Development (2022 – Present):** Designed, built, operated, and maintained internal web systems end-to-end with **Laravel/PHP, MySQL, JavaScript** — from requirements analysis and UI/database design to implementation, testing, deployment, and day-to-day operation.
- **Server operation & maintenance:** Administered VM/AWS servers and Docker environments; monitored, debugged, and resolved production incidents to keep internal systems running stably.
- **RPA & DX (2021 – Present):** Developed RPA robots (**BizRobo!, n8n**) automating reservation-management workflows, increasing productivity and reducing manual labor across travel operations.
- **Data analysis:** Aggregated and analyzed booking and operational data to support reporting and business decisions.
- **Infrastructure Focus (2019 – 2021):** Managed and supported internet network deployment for **international branches**; transformed and distributed **WAN NETWORK (CATO NETWORK)** for overseas branches, particularly in Southeast Asia.

Chief of IT Solution Dept.

H.I.S. SONG HAN VN TOURIST CO., LTD

October 2013 – August 2019 (5 years 11 months) | Ho Chi Minh City, Vietnam

- Led the IT Solution Department (System Team Leader: 5 staff).
- **Managed Project:** Developed a system for managing bookings and arranging Car-Driver-Guide services using **PHP and Linux**.
- Established **Active Directory** for 3 branch offices and 5+ stores, supporting over 400 computers and users.
- Managed networking, including VPN site-to-site connectivity and working with **Juniper, Fortigate, Zywall** firewalls.

EDUCATION

Engineer's Degree

HCMC University of Technology and Education

2006–2011

System, Networking, and LAN/WAN Management

LANGUAGES

Japanese (Intermediate)
English (Upper-Intermediate)
